did lucy know god could neanderthals talk was ardi self conscious these are the strange new breed of questions emerging as we discover more and more about our prehistoric origins questions about knowing while fossil digs and carbon dating tell a remarkable story about the bones and times of our ancient ancestors we cannot help wondering what they knew and when exploring such questions original knowing takes contemporary science as seriously as religious tradition and searches for the story behind this odd creature who senses more to the universe than meets the eye in limestone bluffs and butterfly migrations from stone age tool making to sumerian beer making clues are sought to better understand this strange mind that ponders the origins of its own existence when do babies point and why does it matter what does throwing a frisbee reveal about our distant ancestors is language the key to our minds as many believe or perhaps the heart of knowing rests in something more basic in a smile and the powerful social abilities at work allowing us to sense a depth to life to our own lives a depth that our minds help us glimpse if only through a glass darkly

what happens when the human brain which evolved over eons collides with twenty first century technology machines can now push psychological buttons stimulating and sometimes exploiting the ways people make friends gossip with neighbors and grow intimate with lovers sex robots present the humanoid face of this technological revolution yet although it is easy to gawk at their uncanniness more familiar technologies based in artificial intelligence and virtual reality are insinuating themselves into human interactions digital lovers virtual friends and algorithmic matchmakers help us manage our feelings in a world of cognitive overload will these machines fueled by masses of user data and powered by algorithms that learn all the time transform the quality of human life artificial intimacy offers an innovative perspective on the possibilities of the present and near future the evolutionary biologist rob brooks explores the latest research on intimacy and desire to consider the interaction of new technologies and fundamental human behaviors he details how existing artificial intelligences can already learn and exploit human social needs and are getting better at what they do brooks combines an understanding of core human traits from evolutionary biology with analysis of how cultural economic and technological contexts shape the ways people express them beyond the technology he asks what the implications of artificial intimacy will be for how we understand ourselves

here is another fictional account of zombies coming for the living

glenn morton used to be a young earth creationist but the facts changed his views in this his second book morton shows that mainstream science does not contradict a literal reading of the inerrant word of god the author provides proof that god created adam and eve about 5 5 million years b c please note that for formatting purposes there is an intentionally blank page between pages 5 and 6 of the main text

presents a new vision of feminism and love

the hominid gang explores a search for man s roots that extends alex haley s saga by millions of years

delta willis who rode shotgun with some of modern paleontology s most famous fossil finders brings to life these scientific safaris into the lands and times of our ancestors always engaging a delightful piece of work the washington post full color and black and white photographs throughout

the beginnings of agriculture started to change our ancestors natural diet a mere 12 000 years ago for most of the two million year history of the genus homo foods were harvested from what the environment of the moment had to offer the legacy of such natural diets and humans adaptations to them are increasingly recognized as holding a key to the understanding and prevention of many of today s nutritional problems and diseases the nature and evolution of these diets and the foraging strategies underlying them have nevertheless remained poorly understood this volume based on a royal society discussion meeting brings together the latest findings from a diverse range of relevant disciplines three major sections deal in turn with foraging behaviour in african apes and other non human primates with the fossil evidence on the diet of our human ancestors and with the insights gained from studies of present day hunters and gatherers a final section summarizes recent dietary changes and their impact on human health today

When people should go to the ebook stores, search launch by shop, shelf by shelf, it is truly problematic. This is why we give the books compilations in this website.
