volume 1 of a history of the book in america the colonial book in the atl encompasses the seventeenth and eighteenth centuries it is organized around three major themes the persisting colonial relationship between european settlements and the old world the gradual emergence of a pluralistic book trade that differentiated printers from booksellers and the transition from a culture of the word organized around an understanding of print as a vehicle of the sacred to the culture of republicanism epitomized by benjamin franklin and culminating in the uses of print during the revolutionary era the volume will also describe nascent forms of literary and learned culture including the circulation of manuscripts literacy and censorship orality and the efforts by europeans to introduce written literary to native americans and african americans

the stories now being told about the colonial american past represent an america newly found as scholars continue to evaluate and revise the longer standing stories that have across the centuries held particular cultural and critical sway this collection is a celebration of the widening of scholarly inquire in early american studies and a tribute to a leading early americanist whose scholarly career continues to contribute to the opening up of crucial questions of canon
