people in poverty suffer daily under misconceptions about economic hardship and its causes providing the most comprehensive consideration to date

of poverty in the united states elizabeth seale tackles how we think about issues of culture behavior and poverty cutting straight to the heart of debates about social class the book addresses tough questions including how being poor affects individual behavior and how we can make sense of that in a larger social and political context the central premise is that to understand the behavior and lives of people in poverty one must consider their relational context especially relations of vulnerability and the human need for dignity poverty is a social problem we should address as a society by changing social relations that as a matter of course cause unnecessary and immense suffering to do so we must directly confront our lack of regard for people in poverty by recognizing that they are in fact worthy of an effort to induce major social change this critical introduction to poverty will be an important read for undergraduate students and above in sociology wanting to learn more about the growing social problems of poverty inequality and stratification

in spite of an unprecedeted period of growth and prosperity the poverty rate in the united states remains high relative to the levels of the early 1970s and relative to those in many industrialized countries today understanding poverty brings the problem of poverty in america to the fore focusing on its nature and extent at the dawn of the twenty first century

please note this is a companion version not the original book sample book insights 1 a working definition of poverty is the extent to which an individual does without resources these resources are the ability to purchase goods and services emotional resilience mental ability and spiritual belief 2 support systems are resources they are individuals who can help you when you need it and they are not just about financial or emotional support they are about knowledge bases as well 3 hidden rules are the unspoken understandings that cue the members of a group about whether an individual fits in or not to move from one class to the next it is important to have a spouse or mentor from the class you want to move to model and teach you the hidden rules 4 john s mother adele is a 29 year old female she is a doctor s wife who has quit college to support her husband while he goes through medical school she is elated when john is born but her husband divorces her one year later and announces he is in love with another woman

does poverty lead to environmental degradation do degraded environments and natural resources lead to poverty or are there other forces at play is the relationship between poverty and the environment really as straightforward as the vicious circle portrayal of poverty leading to environmental destruction leading to more poverty would suggest does it matter if the relationship is portrayed in this way this book suggests that it does matter

arguing that such a portrayal is unhelpful and misleading the book brings together a diverse range of analytical frameworks and approaches that can enable a much deeper investigation of the context and nature of poverty environment relationships analytical frameworks and approaches examined in the book include political ecology a gendered lens critical institutionalism the environmental entitlements framework the institutional analysis and development approach the sustainable livelihoods framework wellbeing analysis social network analysis and frameworks for the analysis of the governance of natural resources recommended further reading draws on published material from the last thirty years as well as key contemporary publications giving readers a steer towards essential texts and authors within each subject area key themes running through the analytical frameworks and approaches are identified and examined including power access institutions and scale

alice o connor here chronicles the transformation in the study of poverty from a reform minded inquiry into the political economy of industrial capitalism to the detached highly technical 1990s analysis of the demographic and behavioural characteristics of the poor poverty knowledge is a comprehensive historical account of the thinking behind these very different views of the poverty problem it is a century spanning inquiry into the politics institutions ideologies and social science that shaped poverty research and policy

the ethics of global poverty offers a thorough introduction to the ethical issues surrounding global poverty it addresses important questions such as what is poverty and how is it measured what are the causes of poverty do wealthy individuals have a moral duty to reduce global poverty should aid go to those who are most in need or to those who are easiest to help is it morally wrong to buy from sweatshops is it morally good to provide micro finance featuring case studies throughout this textbook is essential reading for students studying global ethics or global poverty who want an understanding of the moral issues that arise from vast inequalities of wealth and power in a highly interconnected world

this detailed book is a resource for students practitioners and leaders interested in how the major world religions have understood poverty and responded to the poor poverty is a universal phenomenon across history regardless of country or culture today the demographics of the poor are on the rise globally it is a critical issue religious traditions are another universal aspect of human societies and nearly all religions include directives on how to respond to the poor and systemic poverty how do the various religious traditions conceptualize poverty and what do they view as the proper response to the poor poverty and the poor in the world s religious traditions religious responses to the problem of poverty brings together specialists

on the religions of the world and their diverse viewpoints to identify how different religious traditions interact with poverty and being poor it also contains excerpts of religious texts that readers can use as primary documents to illustrate themes such as identifying the poor religious reasons for being poor and responses like charity and development to the existence of poverty this book serves as a powerful resource for students of subjects like international development missiology comparative religion theology social ethics economics and organizational leadership as well as for any socially concerned clergy of various faiths

power poverty and prayer the challenges of poverty and pluralism in african christianity 1960 1996 inquires into the role christianity plays in african political and socio economic life colonialism is over but the drums of liberation are still throbbing christianity paved the way for colonialism but also produced the champions of independence what role if any is christianity playing towards the second liberation of the continent the author writes on a topic that is at the heart of the second liberation of africa analyzing the dialectics of power poverty and prayer in post independence africa in general

this brief paperback is perfect for anyone who wants a quick introduction to microeconomic principles as well as a concise overview of american economic history and current social and economic issues the authors explain both the economic way of thinking the common threads such as the power of choice that tie our many disparate views together and why the economist s way of looking at things is so important today
