the continuity of legal systems in theory and practice examines a persistent and fascinating question about the continuity of legal systems when is a legal system existing at one time the same legal system that exists at another time the book's distinctive approach to this question is to combine abstract critical analysis of two of the most developed theories of legal systems those of Hans Kelsen and Joseph Raz with an evaluation of their capacity in practice to explain the facts attitudes and normative standards for which they purport to account that evaluation is undertaken by reference to Australian constitutional law and history whose diverse and complex phenomena make it particularly apt for evaluating the theories explanatory power in testing whether the depiction of Australian law presented by each theory achieves an adequate fit with historical facts the book also contributes to the understanding of Australian law and legal systems between 1788 and 2001 by collating the relevant Australian materials systematically for the first time it presents the case for reconceptualising the role of imperial laws and institutions during the late nineteenth and early twentieth centuries and clarifies the interrelationship between colonial state commonwealth and imperial legal systems both before and after federation Bloomsbury Publishing
