from the bestselling author of *A History of God* and *The Great Transformation* comes a balanced nuanced understanding of the role religion plays in human life and the trajectory of faith in modern times. Why has God become incredible? Why is it that atheists and theists alike now think and speak about God in a way that veers so profoundly from the thinking of our ancestors moving from the paleolithic age to the present? Karen Armstrong details the lengths to which humankind has gone to experience a sacred reality that it called God, Brahman, Nirvana, Allah, or Dao. She examines the diminished impulse toward religion in our own time when a significant number of people either want nothing to do with God or question the efficacy of faith with her trademark depth of knowledge and profound insight. Armstrong elucidates how the changing world has necessarily altered the importance of religion at both societal and individual levels and she makes a powerful, convincing argument for structuring a faith that speaks to the needs of our dangerously polarized age.

the idea of a single divine being god yahweh allah has existed for over 4 000 years but the history of god is also the history of human struggle while judaism islam and christianity proclaim the goodness of god organised religion has too often been the catalyst for violence and ineradicable prejudice in this fascinating extensive and original account of the evolution of belief karen armstrong examines western society's unerring fidelity to this idea of one god and the many conflicting convictions it engenders a controversial extraordinary story of worship and war a history of god confronts the most fundamental fact or fiction of our lives

in the late twentieth century fundamentalism has emerged as one of the most powerful forces at work in the world contesting the dominance of modern secular values and threatening peace and harmony around the globe yet it remains incomprehensible to a large number of people in the battle for god karen armstrong brilliantly and sympathetically shows us how and why fundamentalist groups came into existence and what they yearn to accomplish we see the west in the sixteenth century beginning to create an entirely new kind of civilization which brought in its wake change in every aspect of life often painful and violent even if liberating armstrong argues that one of the things that changed most was religion people could no longer think about or experience the divine in the same way they had to develop new forms of faith to fit their new circumstances armstrong characterizes fundamentalism as one of these new ways of being religious that have emerged in every major faith tradition focusing on protestant fundamentalism in the united states jewish fundamentalism in israel and muslim fundamentalism in egypt and iran she examines the ways in which these movements while not monolithic have each sprung from a dread of modernity often in response to assault sometimes unwitting sometimes intentional by the mainstream society armstrong sees fundamentalist groups as complex innovative and modern rather than as throwbacks to the past but contends that they have failed in religious terms maintaining that fundamentalism often exists in symbiotic relationship with an aggressive modernity each impelling the other on to greater excess she suggests compassion as a way to defuse what is now an intensifying conflict bonus this edition contains an excerpt from karen armstrong's twelve steps to a compassionate life
