for years pundits have trumpeted the earthshattering changes that big data and smart networks will soon bring to our cities but what if cities have long been built for intelligence maybe for millennia in code and clay data and dirt shannon mattern advances the provocative argument that our urban spaces have been smart and mediated for thousands of years offering powerful new ways of thinking about our cities code and clay data and dirt goes far beyond the standard historical concepts of origins development revolutions and the accomplishments of an elite few mattern shows that in their architecture laws street layouts and civic knowledge and through technologies including the telephone telegraph radio printing writing and even the human voice cities have long negotiated a rich exchange between analog and digital code and clay data and dirt ether and ore mattern s vivid prose takes readers through a historically and geographically broad range of stories scenes and locations synthesizing a new narrative for our urban spaces taking media archaeology to the city s streets code and clay data and dirt reveals new ways to write our urban media and cultural histories

matthias smalbrugge compares modern images to plays without a script while they appear to refer to a deeper identity or reality it is ultimately the image itself that truly matters he argues that our modern society of images is the product of a destructive tendency in the christian notion of the image in general and augustine of hippo s in particular this insight enables him to decode our current scripts of image as we live in an increasingly visual culture we are constantly confronted with images that seem to exist without a deeper identity or reality but did this referential character really get lost over time smalbrugge first explores the roots of the modern image by analysing imagery what it represents and its moral state within the framework of platonic philosophy he then moves to the augustinian heritage in particular the soliloquies the confessions and the trinity where he finds valuable insights into images and memory he explores within the trinitarian framework the crossroads of a theology of grace and a theology based on neoplatonic views smalbrugge ultimately answers two questions what happened to the referential character of the image and can it be recovered

in the fully rewritten third edition of this classic text nicholas mirzoeff introduces visual culture as visual activism or activating the visible in this view visual culture is a practice a way of doing making and seeing the 12 new chapters begin with five foundational concepts including indigenous ways of seeing visual activism in the wake of slavery and unfixing the gaze the second section outlines three currently successful tactics of visual activism removal of statues and monuments restitution of cultural property and practices of repair and reparations the final section addresses catastrophe and trauma from palestine s nakba to the climate disaster and the intersections of plague and war each section also includes new in depth case studies called visualizations ranging from oil painting to kongo power figures and the mediated practice of taking a knee engaging with questions of racializing colonialism and undoing gender throughout this edition maps the activist turn in the field since 2014 and sets directions for its future expansion this is a key text in visual culture studies and an essential resource for research and teaching in the field
